Sun protection has come a long way since the days of greasy, messy lotions. In fact, thanks to new, sophisticated formulations it has never been easier to defend against damaging UV rays. From indulgent sunscreens infused with vitamins such as the exquisite, beautifully scented Hampton Sun SPF 15 Gel to the amazingly convenient, sports-friendly Peter Thomas Roth SPF 30 Continuous Sunscreen Mist, your skin will be protected all summer long. For the ultimate in skin care and sun care, cult favorite La Mer SPF 18 Fluid Tint delivers powerful anti-aging technology, UV defense and gives

skin a healthy, sun-kissed glow. But it's not just skin that needs a shield this summer. What a shame to spend all that time in The Salon perfecting your highlights, only to expose them to the ravaging effects of sun, salt and chlorine? Work a few pumps of Davines Sù Protective Moisturizing Sun Creme through your hair to keep strands soft and the color gorgeous. After a long day outside, pamper overexposed hair with the luxurious Kérastase Soleil Masque UV Défense Active after-sun hair treatment to restore optimum moisture levels and repair damaged areas. It's going to be one glamorous summer!
